PROFESSIONAL SUMMARY

Backend developer with one year of industry experience building and maintaining production Python services using Django and Django REST Framework. Skilled in RESTful API design, PostgreSQL and Django ORM query optimization, Swagger/OpenAPI documentation, and securing applications with JWT authentication and role-based access control (RBAC). Computer Science and Engineering undergraduate seeking a backend engineering role building scalable, secure and maintainable systems.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, SQL

Backend & Frameworks: Django, Django REST Framework (DRF), FastAPI, WebSockets, RESTful API Design

Databases: PostgreSQL, MySQL, SQLite, Django ORM, Query Optimization

DevOps & Deployment: Docker, Nginx, CI/CD Pipelines, Linux (Ubuntu)

Security & Authentication: JWT, Role-Based Access Control (RBAC)

Tools & Practices: Git, GitHub, Git-flow, Postman, Swagger/OpenAPI, Agile, Code Review, PEP 8

Frontend: React, Tailwind CSS, JavaScript

PROFESSIONAL EXPERIENCE

Backend Developer — PsyLab Software Limited

Nov 2025 – Present

Remote

- Design and maintain scalable backend services for multiple client projects using Django and PostgreSQL.
- Improved API response time by optimizing database queries and applying Django ORM optimization techniques.
- Maintain Swagger/OpenAPI documentation to streamline frontend-backend integration.
- Implemented JWT-based authentication and role-based access control (RBAC) for secure data handling.

Python Developer — BdTask Limited

Aug 2025 – Oct 2025

Industrial Attachment

- Contributed to a large-scale e-commerce engine, developing order management and inventory tracking modules.
- Assisted in refining database schemas, improving data retrieval speed for high-traffic product catalogs.
- Followed Git-flow branching and joined peer code reviews to ensure PEP 8 compliance and code quality.
- Worked in an Agile team, contributing to daily stand-ups and sprint planning sessions.

PROJECTS

SmartCare — Hospital Management System (Backend) [\[Repository\]](#)

Django, DRF, SQLite

- Developed a healthcare backend managing doctor profiles, patient records and appointment scheduling.
- Implemented secure patient registration and real-time booking logic to prevent scheduling conflicts.
- Integrated role-based permissions to protect sensitive medical records and user data.

StyleHub — E-commerce Clothing Store (Backend) [\[Repository\]](#)

Django, DRF, SQLite

- Built a backend supporting complex product schemas, cart logic and wishlist functionality.
- Implemented multi-factor filtering (category, size, color, price) using django-filter.
- Developed a secure checkout workflow and a product review system to improve user engagement.

Banking System — Bank Management Backend [\[Repository\]](#)

Django, DRF, JWT

- Implemented account creation, deposits, withdrawals and fund transfers, secured with token-based authentication and detailed transaction audit trails.

EDUCATION

B.Sc. in Computer Science & Engineering — Uttara University

May 2026 – Present

Dhaka, Bangladesh — currently enrolled in the first semester (ongoing).

Diploma in Computer Science & Technology — Habiganj Polytechnic Institute

Jan 2022 – Jan 2026

Habiganj, Bangladesh — CGPA: 3.48 / 4.00

ACHIEVEMENTS

- Solved 130+ problems on [Codeforces](#) and 40+ problems on [LeetCode](#), strengthening problem-solving and algorithmic skills.
- Completed Diploma in Computer Science & Technology with a CGPA of 3.48/4.00.

ADDITIONAL INFORMATION

Interpersonal Skills: Problem Solving, Time Management, Team Work & Collaboration, Technical Documentation

Languages: Bangla (Native), English (Intermediate – Professional Working Proficiency)
