CAREER OBJECTIVE

Computer Science and Engineering undergraduate with a completed Diploma in Computer Science and practical industry experience in Python backend development. Seeking to build a strong academic foundation in software systems, databases, and algorithms, and to contribute to research and development work in scalable backend and data-driven systems.

EDUCATION

Uttara University, Dhaka, Bangladesh

May 2026 – Present

B.Sc. in Computer Science & Engineering

Currently enrolled in the 1st semester (ongoing).

Habiganj Polytechnic Institute, Habiganj, Bangladesh

Jan 2022 – Jan 2026

Diploma in Computer Science & Technology

CGPA: 3.48 / 4.00

ACADEMIC & RESEARCH INTERESTS

- Backend Architecture & RESTful API Design
- Database Systems & Query Optimization
- Web Application Security & Authentication
- Algorithms & Data Structures
- Software Engineering Practices
- Cloud Deployment, Containerization & CI/CD

PROFESSIONAL EXPERIENCE

PsyLab Software Limited — Backend Developer (Remote)

Nov 2025 – Present

- Design and maintain scalable backend services for multiple client projects using Django and PostgreSQL.
- Improved API response time by optimizing database queries and applying Django ORM optimization techniques.
- Maintain Swagger/OpenAPI documentation to streamline frontend-backend integration.
- Implemented JWT-based authentication and role-based access control (RBAC) for secure data handling.

BdTask Limited — Python Developer, Industrial Attachment

Aug 2025 – Oct 2025

- Contributed to a large-scale e-commerce engine, developing order management and inventory tracking modules.
- Followed Git-flow branching and joined peer code reviews to ensure PEP 8 compliance and code quality.
- Assisted in refining database schemas, improving data retrieval speed for high-traffic product catalogs.
- Worked in an Agile team, contributing to daily stand-ups and sprint planning sessions.

ACADEMIC & PERSONAL PROJECTS

SmartCare — Hospital Management System (Backend) [\[Repository\]](#)

Django, DRF, SQLite

- Developed a healthcare backend managing doctor profiles, patient records, and appointment scheduling.
- Implemented secure patient registration and real-time booking logic to prevent scheduling conflicts.
- Integrated role-based permissions to protect sensitive medical records and user data.

StyleHub — E-commerce Clothing Store (Backend) [\[Repository\]](#)

Django, DRF, SQLite

- Built a backend supporting complex product schemas, cart logic, and wishlist functionality.
- Implemented multi-factor filtering (category, size, color, price) using django-filter.
- Developed a secure checkout workflow and a product review system to improve user engagement.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript

Frameworks & Libraries: Django, Django REST Framework (DRF), FastAPI, WebSockets, React, Tailwind CSS

Databases: PostgreSQL, MySQL, SQLite, Django ORM

DevOps & Deployment: Docker, Nginx, CI/CD Pipelines, Linux (Ubuntu)

Tools: Git, GitHub, Postman, Swagger/OpenAPI

Security & Auth: JWT, Role-Based Access Control (RBAC)

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- Solved **130+** problems on [Codeforces](#) and **40+** problems on [LeetCode](#).
- Completed Diploma in Computer Science & Technology with a CGPA of 3.48/4.00.

INTERPERSONAL SKILLS

- Problem Solving
- Team Work & Collaboration
- Time Management
- Technical Documentation

LANGUAGES

Bangla: Native | **English:** Intermediate (Professional Working Proficiency)
